

Medical Questionnaire for Shark Walker and Shark Encounter

Shark Walker and Shark Encounter are exciting and demanding activities. To participate in the mentioned activities, you must not be extremely overweight or out of condition. Your respiratory and circulatory systems must be in good health. All body air spaces must be normal and healthy. A person with heart trouble, a current cold or congestion, epilepsy, asthma, or a severe medical problem, or who is under the influence of alcohol or drugs, should not participate. If taking medication, consult your doctor before participating in this program. The purpose of the Medical Questionnaire is to find out if you should be examined by a physician before participating in the mentioned activities. A positive response to a question does not necessarily disqualify you from the mentioned activities. A positive response means that there is a preexisting condition that may affect your safety while diving and you must seek of a physician. Please answer the following questions on your past and present medical history with a YES or NO. If you are not sure, answer YES. If any of these items apply to you, we must request that you consult with a physician prior to participating in the program.

- _____ Do you have a history of ear or sinus surgery?
- _____ Do you have active asthma or history of emphysema or tuberculosis?
- _____ Are you or could you be pregnant?
- _____ Do you have a history of diabetes
- _____ Do you have a history of heart disease or heart attack, heart surgery or blood vessel surgery?
- _____ Do you have a history of fear of closed or open spaces or panic attacks (claustrophobia or agoraphobia)?

Note: A minimum pre-flight surface interval greater than 12 hours is suggested after your last dive.
As the Burj Khalifa is over 300m tall, please allow 12 hours after your dive before going to the observation deck or try and ensure you visit before your dive.
